MULTIFUNCTIONAL SOLUTIONS

Flexibility in shapes, sizes and colours

Hartmann offers a wide choice of customised packaging for different product and price segments such as electronics, food, lighting and mobile phones. Our in-house team of design engineers makes creative packaging solutions for specific needs and requirements. In our factories moulded fibre packaging can be produced in individual sizes, shapes and colours. The Hartmann solution can also be part of a complex packaging concept.

Moulded fibre packaging from Hartmann offers a host of advantages:

- ✓ Customer specific design
- ✓ High protection for products
- ✓ Strong absorbing capabilities
- ✓ Suitable for automatic packing lines
- ✓ Stackable and ready for use (no folding)
- ✓ Easy de-nesting
- ✓ Clean to use on packing lines
- ✓ High volume capacity
- ✓ Competitive pricing
- ✓ Sustainable material
- ✓ Easy disposal

Due to our special production process we are able to optimise our packaging for high value solutions and can guarantee the best geometrical accuracy, optimised stacking, smooth surface and diecut edges.

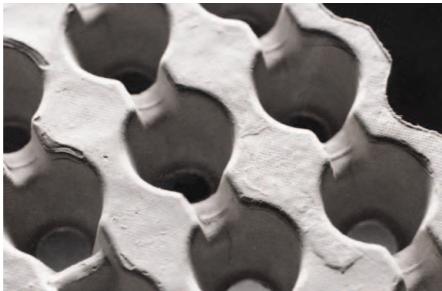

SUSTAINABLE SOLUTIONS

Responsible and eco-friendly material

Hartmann moulded fibre packaging is based on recycled paper and can itself be recycled after use. By recycling we save resources, create less CO₂ emissions and help to solve the ever-growing waste disposal problem. Our production sites are certified and meet European requirements on quality, environment, health and safety.

From newspaper...

... to moulded fibre

- ✓ Easy disposal
- ✓ Low packaging tax
- ✓ Low environmental impact

UPGRADED SOLUTIONS

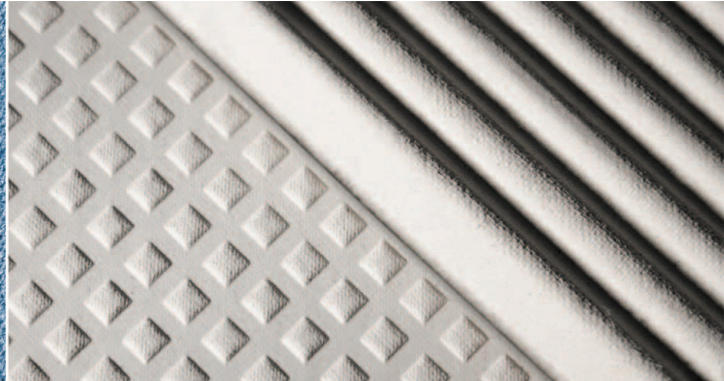

Examples of personalisation and decoration

Embossing enables communication of necessary information and can be used to personalise packaging. It can also be added as a design element to increase the value of the packed product.

Ideal for logos, codes and marks

HARTMANN – YOUR SOLUTION

International

Hartmann is specialised in moulded fibre production and is one of the largest manufacturers of moulded fibre packaging in the world. Hartmann has sales offices in 10 countries and production in five factories in Europe, one in Israel and one in North America. This international set up supports our customers' requirements.

Sustainable

Hartmann is the only European packaging company that has ever been awarded by the EU for its commitment to the environment and received the "European Management Award for Environmental and Sustainability Development".

Innovative

Hartmann provides redefined quality and delivery performance to meet the challenges of modern markets. Close dialogue with customers, creative solutions based on their needs and an advanced technology platform are your assurance of the best possible solution.
